PROFILE

Motivated and detail-oriented Software Engineering student with a strong foundation in software development, problem-solving, and programming. Passionate about building efficient and user-friendly applications. Experienced in academic and personal projects involving web development, databases, and object-oriented programming. Eager to contribute technical skills and continuously learn modern technologies in a professional environment.

WORK EXPERIENCE

Junior Software Developer

JUNE 2022 - AUGUST 2023

- Assisted in developing and maintaining web applications.
- Fixed software bugs and improved system performance.
- Worked with databases and application testing.
- Collaborated with senior developers on project tasks.

Web Development Intern

September 2023 - December 2024

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Integrated front-end interfaces with backend services.
- Participated in software testing and debugging.
- Prepared technical documentation and project reports.

Software Engineering Associate

January 2025 - Present

- Designed and implemented software solutions for various projects.
- Worked with databases, APIs, and version control systems.
- Conducted requirement analysis and system testing.
- Collaborated with team members using Agile methodologies.
